PLEASE NOTE: Each county served by United Way of Northwest Florida is represented by a separate funds distribution committee. If you are requesting funds for a program that serves multiple counties, a separate application must be made for each program within each county. This process will ensure the specific needs of each county are met.

IMPORTANT: Each program in each county requires a separate, complete, three-part application. A complete three-part application consists of Part 1: Program Details, Part 2: Program Budget Details, and Part 3: Agency Financial Overview. The information in Parts 1 and 2 need to be **program specific for the county** in which the application is being submitted. Part 3 is agency wide information and will be the same document for each of the grant applications submitted, but must accompany each grant application. Please see Attachment 5 of the Affiliated Agency Application for most of the data for Part 3 of the grant application.

APPLICATION DEADLINE: Friday, February 16, 2018. Please submit the original application and one (1) copy.
